INTRODUCTORY COURSE FOR HUMAN BIOLOGY

Enquiry & Application:

Venue: Saint Francis University,
2 Chui Ling Lane, Tseung Kwan O
(Tiu Keng Leng MTR Station, Exit B)

Tel: 3653 6700

Email: caps@sfu.edu.hk

Web: <http://caps.cihe.edu.hk>

1. Applicants must be Hong Kong residents. The HK identity document(s) should be presented during application. No age limit is set for each module except stated otherwise, but applicants should fulfill the academic or professional requirements.
2. Please return the completed application form, in person or by post, to the Centre for Advanced and Professional Studies (CAPS).
3. The University reserves the right to decide whether an applicant is admitted or not, and holds the final decision to cancel a module / programme in case of insufficient registration. If a module / programme is cancelled by the University due to any reason, tuition fees paid will be refunded by crossed cheque.
4. Tuition fees paid will not be refunded in all cases unless the module / programme is cancelled by the University. Upon registration, no change of class, transfer of fee or fees refund would be allowed.
5. All classes take place as scheduled unless typhoon signal no.8 or Black Rainstorm Warning Signal is hoisted, or class cancellation is announced by the Education Bureau. Students have the responsibility to pay attention to announcements on the media during unstable weather.
6. The University will issue certificates of attendance or completion only to students who have attained 80% or above of the attendance.
7. The University reserves the right to alter class arrangements in case of special event or absence of tutors.
8. Unless with permission from the University, no recording activity is allowed in class. No sales or promotion activity is allowed unless authorised by "Saint Francis University".
9. Information supplied by applicants will be kept in strict confidence. Applicants may check or amend their personal information on the application form if necessary. In the event that applicants fail to provide adequate information, the University may not be able to process their applications or offer any service.
10. For any enquiry, please contact us by phone at 3653 6700.

Course content:

This course gives students a basic understanding of human anatomy and physiology, from molecules to the whole body. It focuses on how body systems work together, using homeostasis as the main theme.

The course also covers basic nutrition and dietetics to help understand the body's nutritional needs. This knowledge prepares students for further studies in health sciences, such as nursing, healthcare and pharmaceutical dispensing.

- Comprehend the basic biology behind human health and well-being
- Learn how the main body systems/functions are built and work together
- Understand the basic ideas about nutrition and dietetics
- Know how diet helps with growth and good health

Target participants:
